

## Exchange Initiative

### New Resources (Videos) and Feedback

Of the series of initiatives we hosted in March 2019 we were able to capture, produce and publish content from three different sessions which has been shared for the benefit of many. These add to the 40 videos already hosted from previous Creating Conversations Events and the Masterclass on Language and Violence.

There are **new videos** hosted within the initiatives below that were filmed, and **new feedback** related to each event (where consent to share has been provided).

Whilst the content was somewhat tailored to the participants in the room on the day, the content is possibly of interest to you directly or to people you may be working with or alongside.

### Using Insight Exchange

We have received some thoughtful queries about if and how the publications (resources and videos) can be used. To assist any participant or website user with answers to these questions we have created guidance on [Using Insight Exchange](#).
