

Insight Exchange

Voices of Insight Collection

www.insightexchange.net

We have commissioned a collection of original artworks to be published with the Insight Exchange Voices of Insight narratives.

The initiative is designed to illuminate visual metaphors and symbols used by Insight Exchange participants as part of how they describe their lived experience to inform social, service and systemic responses.

The initiative is an extension of the participation experience and is coordinated in complement with the participation processes used for interviewing and publishing.

The artwork will not involve a direct representation of participants or their families. The artwork will not include the participants' belongings or other personalised identifiers.

Process:

Voices of Insight participants are invited to consider the opportunity for one of the original artworks to be developed and represented with their published narrative.

Participants are asked if they

1. want to accept this opportunity
2. consent to the selected excerpt from their narrative to inform design.

A participant can decline use of the final artwork alongside their Voices of Insight narrative, and the artwork will be repurposed by Insight Exchange. Due to resource limitations, participants who withdraw consent for the final artwork to be published with their narrative, will not be offered a replacement image.

Terms:

The artwork is funded by Insight Exchange and owned by Insight Exchange with rights in perpetuity. The artwork is not the property of any participant and cannot be used by the participant or artists for other purposes.

Artwork copyright belongs to the artist and the artwork may be used in the professional portfolio and related artist led, or artist and Insight Exchange led (not for profit) exhibition purposes.

The artwork can only be used by stakeholders in accordance with the terms outlined on '[using insight exchange](#)'. The artwork cannot be sold or commercialised.

Insight Exchange reserves the right to decommission, repurpose or reallocate the artwork.

The artwork will be created by award winning photographer Louise Whelan.

Louise Whelan

Insight Exchange Collaborator - Artist

Louise is a visual artist with a photo-media base. Her multidisciplinary approach spans photo-media, projection, video art, public, installation and curation. Much of her practice draws inspiration from environmental and humanitarian issues, and her interest in the aesthetics of memory.

Louise is widely published and exhibited. She photographs for the state libraries of NSW, WA and the National Library of Australia. Louise has more than 30 national and international awards to her name.

Louise complements her photographic works with the State Library of NSW in the oral history discipline. The UNESCO Australian Memory of the World Committee has collected some of her oral histories as a documentary heritage to the UNESCO Australian Memory of the World Register.
