3 Guiding Questions

1. How are Insight Exchange resources and ideas being used? Which resources in particular and which elements of the ideas?

250 words (the more practical the example the better – even if you are at the start of something)

2. How are the Insight Exchange resources being received?

If you can speak to the responses of a worker or person with lived experience that would be really useful to get a sense/picture of how the ideas land.

3. Something further I want to share about Insight Exchange ideas and resources is:

Any extra comments about if and how Insight Exchange is shaping how you see things, how you say things, or what, (if anything) is particularly useful in your thinking, practice, processes?

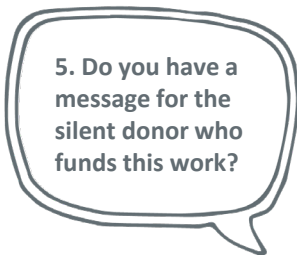

2 Feedback Questions

4. Do you have a message for one of the people who shared their insights?

People who share their insights from lived experience of domestic and family violence have done so with generosity and with an understanding that they may never know how much the insights mean to people who read them.

Your deidentified message will be shared with participants by letting them know how much their voices are being heard, and how their contributions are informing social, service, systemic change in some way.

5. Do you have a message for the silent donor who funds this work?

Insight Exchange has been sustained through the generous humble donations of individuals and a silent donor for the benefit of many. We want to authentically represent what this donation has meant to many and your de-identified message will add to this intention.
