FINANCIAL ABUSE LIVED EXPERIENCE INSIGHTS

This resource contains descriptions of domestic and family violence.

We acknowledge the Traditional Custodians of the land on which our work and services operate and pay our respects to Elders past, present and emerging. We extend this respect to all First Nations peoples across the country and the world. We acknowledge that the sovereignty of this land was never ceded. Always was, always will be Aboriginal land.

When a person experiencing domestic and family violence reaches out – it may be the first, only or last time they seek support.

Be ready to respond.

“ Domestic and family violence is an injustice and is an offence to my dignity, compromising my safety and undermining my wellbeing... and the dignity and wellbeing of the people I care for and who care for me. ”

In focus | Financial Abuse

The terms financial and economic abuse are often used interchangeably. Economic abuse is a form of family violence that: "... involves behaviours that control a [person's] ability to acquire, use and maintain economic resources, thus threatening her [or his] economic security and potential for self-sufficiency."¹

Economic abuse includes a range of behaviours carried out by a perpetrator such as:

- controlling a victim's access to cash and bank accounts
- hiding financial information and assets
- sabotaging study and/or employment opportunities
- forcing a partner to take out debt, and
- manipulating finances to avoid or reduce child support payments.
