Strategic Framework - updated

This **Insight Exchange Strategic Framework** sets the vision, purpose, scope, inputs, outputs, outcomes and accountabilities for the Insight Exchange work.

It is published on the [Strategy and Engagement](#) landing page on the Insight Exchange website and shared with stakeholders.

“
I feel like in a small way... we are enabling a deeper difference.
”
(Donor 2022)

The first edition of the Strategic Framework was published in Jan 2021 for the period of 2021-2022. Insight Exchange has been funded until the end of June 2024, and the [Strategic Framework](#) has been updated to reflect this extended period.

Stop the misuse of NDAs

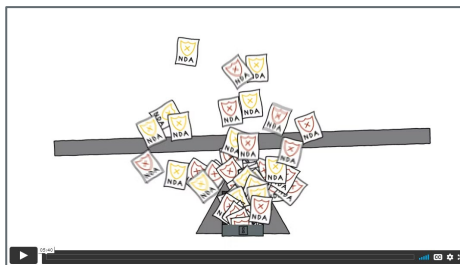

In 2021, the University of Sydney Law School and Insight Exchange collaborated to host a virtual event with author of **'Going Public'** Distinguished Professor Julie Macfarlane.

*“Prof. Julie Macfarlane and Zeld Perkins have joined forces to create **CAN'T BUY MY SILENCE** after their own shocking personal experiences exposed the harmful use of NDAs.”*

Can't Buy My Silence (CBMS) is an international campaign committed to end the misuse of non-disclosure agreements (NDAs) to buy victims' silence.

The misuse of non-disclosure agreements is perpetuating the problem of discrimination, misconduct and crime. This is a shared challenge and all of us need to play our part.
